

Dear Customer,

This is with reference to the NSE and BSE circular in respect of 'Precautions for clients dealing in Options' dated July 06, 2022.

It is our continuous endeavour to help you with required guidance periodically and ensure that you do not face any unpleasant incidence when trading in 'Options'. Some of the important 'Practices to be Avoided' as outlined by Exchange (NSE and BSE) are as follows:

- ✓ Sharing of trading credentials – login id & passwords including OTP's
- ✓ Trading in leveraged products like options without proper understanding, which could lead to losses
- ✓ Writing/ selling options or trading in option strategies based on tips, without basic knowledge & understanding of the product and its risks
- ✓ Dealing in unsolicited tips through Whatsapp, Telegram, YouTube, Facebook, SMS, calls, etc
- ✓ Trading in "Options" based on recommendations from unauthorised / unregistered investment advisors and influencers
